36" Range Hood, Glacier, 250 CFM

This under-cabinet convertible range hood features a clean, contemporary shape to complement nearly any kitchen design. Equipped with the exclusive Broan Captur system, which combines advanced blower design with new filter technology, this 300 Max Blower CFM-rated hood provides 97.4-percent removal of smoke and odor to protect your home and family from airborne pollutants caused from cooking. The quiet-running Glacier is also designed with smooth flow technology, which streamlines the path of air for improved efficiency and noise reduction. Easy-flip rocker switches control the 2 fan speeds and halogen lighting system. Using the included EZ1 system, Glacier can easily be installed by one person in up to half the time of a standard install.

**Features:**

- Hidden under the cabinet, this sleek and stylish vent hood matches almost every modern or traditional kitchen
- Helps solve all your kitchen ventilation problems with this 36" wide vent hood
- Easily see what you're cooking with its halogen bulb that provides extra lighting for your cooking surface
- Achieve a stylish look with this black color vent hood that complements the entire kitchen
- Convertible to accommodate either top or rear venting applications or non-ducted operation using charcoal filters
- 2 dishwasher-safe open mesh filters feature advanced high-flow technology to grab more airborne grease
- EZ1 system enables easy single-person installation in up to half the time of traditional methods
- Range hood is installed as hardwired or with an optional power cord kit (SHCK44; sold separately)
- ADA compliant, remote operation is possible using a standard UL approved wall switch
