- **Frozen Bake™ Technology:** Skip preheating and cook frozen favorites like pizza in fewer steps with preprogrammed settings that automatically adjust cooking times for you.

- **Broil:** Evenly brown lasagna or pizza toppings and caramelize glazes and sauces when you place food close to the oven's top heating element using the Broil setting.
- **Convection Broil:** Cook and brown thicker cuts of meat like ribs or chicken thighs using the Convection Broil setting. The oven's top heating element broils your food while the fan circulates hot air throughout the oven.
- **Bake:** Cook your favorite treats like cookies, pies, cakes or muffins with the Bake setting that uses hot air to cook food inside the oven.
- **Convection Bake:** Convection Bake uses a third heating element and a fan to achieve more even heating when cooking on multiple racks.

- **Touchscreen:** Get instant access to the settings you use most with a full-
